Aspiro Celebrates Three Years with Open House

The month of April marks the completion of Aspiro's third year of operation. As part of our celebration, we are hosting an Open House at our new 8,000 square foot facility in Mount Pleasant, Utah on Wednesday April 15, from 6:00 to 7:30 p.m.

"In Aspiro's three years in operation, we have been honored to work with well over 500 students and their families. We have also created two additional programs; Vantage Point (more clinically advanced student) and Kairos (young adults)," said Aspiro CEO, Randy Oakley. "It has been an incredible journey to see the growth in our staff, and the realization of a dream. One of the most satisfying things to me personally is that the Wilderness Adventure Therapy (WAT) model is not only working as a business model, but as a phenomenal tool for reaching kids, " said Oakley.

All of our industry friends are welcome to attend our Open House if you happen to be in the region. Please contact Brian Church to R.S.V.P. For additional information on the Aspiro Group of programs, please visit www.aspiroprograms.com.
