Please be aware that Clark Financing-formerly-known-as-Clark Custom Educational Loans, and the leader in financing for the therapeutic school and wilderness community is alive-and-well.

Any misunderstanding to the contrary is understandable given the rocky environment of the US financial crisis. However, Clark Financing is fortunate enough to have built strong relationships with the most competitive lenders in US. It is true that educational loans are no longer available for most K-12 schools and not at all for therapeutic and wilderness programs. That has not stopped us from turning our focus to what is available to help families who need financing assistance. Below are some answers to commonly asked questions.

What is available through Clark Financing? Personal loans that do not require collateral (home or other assets) to secure the loan. A list of details and benefits can be found at our website

Is it hard to qualify? No, borrowers need to have decent credit scores, verifiable income and room in their budget for a loan payment. A score of 645 and above will be considered with credit histories that demonstrate responsible borrowing. Clark Financing provides a free credit report and consultation.

How much can be borrowed? \$1000-\$50,000+ depending on eligibility. Loan packages are available to increase the total amount borrowed. Clark Financing loan specialists personally consult families before loan applications are submitted to insure affordability and approval.

What types of programs and consultants does Clark Financing work with?

Traditional Boarding Schools, Therapeutic Boarding Schools, Residential Treatment Centers, Military Schools, Special Needs Schools, Wilderness Schools and Programs, Youth and Adult Drug and Alcohol Treatment Centers, Eating Disorder Clinics, Educational and Psychological Testing Clinics, Interventionist, Transportation Companies, Educational Consultants, Aftercare Services and any other related service that is needed to support the student or patient.

Does our company need to sign up or provide information in order for clients to receive financing? There is no sign up required. We do ask that affiliates, who intend to refer, provide us with their contact and pricing information. This allows us to understand how much money to apply for and to quickly contact you when a borrower is approved for a loan. You can send this info to Team@clarkbhf.com.

As a program or consultant, what do I need to know about referring clients to Clark Financing? It is easy. You can refer families three ways: 888-755-3079, Team@clarkBHF.com or online at: www.ClarkBHF.com.

If you have additional questions about the services provided by Clark Financing, please feel free to contact us Monday through Friday 8am-5pm PST.
