February 26, 2009

Oxbow Academy is pleased to announce Erin Smith has joined the school as Admissions Director.

Erin works with parents and educational consultants to provide point of contact services regarding admission, transportation, facility tours, and clinical liaison services.

The Academy is a residential treatment center located in Wales, Utah. The school's treatment protocol addresses the therapeutic, academic, and developmental needs of adolescent boys with sexual dependencies.

"Our students are tremendous young men," Erin says. "The Oxbow family is recognized for its dedication in providing therapeutic excellence. I'm very pleased to be a part of that family."

She says working closely with parents is rewarding because Oxbow services are directed at helping the entire family.

Prior to joining Oxbow, Erin worked at Pine Creek Ranch where she served as human resources manager and facilitated the development of staff/advocate training.

A native of Utah, Erin has lived in Boston and the Czech Republic. She enjoys photography, reading and snowmobiling.
