February 18, 2009

We are very excited to open Shadow Mountain Academy, a recovery school for young adults, to young adult women. This is the culmination of our original plan to include women within the first two years of opening our unique and effective program. Additionally, many professionals have expressed an interest in offering this environment to young women when they are here to visit.

The Women's House is located centrally on the beautiful 38 acre campus. The quality housing and beautiful furnishings are characteristic of our Shadow living environment. The phase activities and programming remain the same for all students.

Our Recovery School for young adult women is a terrific alternative to urban aftercare options for young women 17-30 yrs old.

Women's House Opens! March 1, 2009
